

Beaufort Pie Cart Daily Check List

Before use

1. Remove charging cable, coil it and store in cabin
2. Check oil level with dip stick, top up if low, use standard SAE 30, available in cupboard
3. Check water level in radiator, top up if low
4. Check petrol level, at least 25% full, top up with normal unleaded petrol using the 20l container available in the hangar.
5. Check tyres are correctly inflated
6. Conduct a walk around check
7. Ensure no obstructions such as gliders, chocks etc for reversing out of hangar
8. Start using choke, if cold consider "start you bastard" spray on outside of air cleaner

On return to hangar

1. Drive into North corner of North hangar but first check if clear of obstacles
2. Ensure ignition is off
3. Uncoil charging cable and plug in
